Research data rewards and recognition

Sociological changes arising from shared data

- Asking better questions vs. having unique data

Domain vs. cross-domain use and preservation

- Who values the data?

Analogs with software and cyberinfrastructure

- Reward metrics and recognition
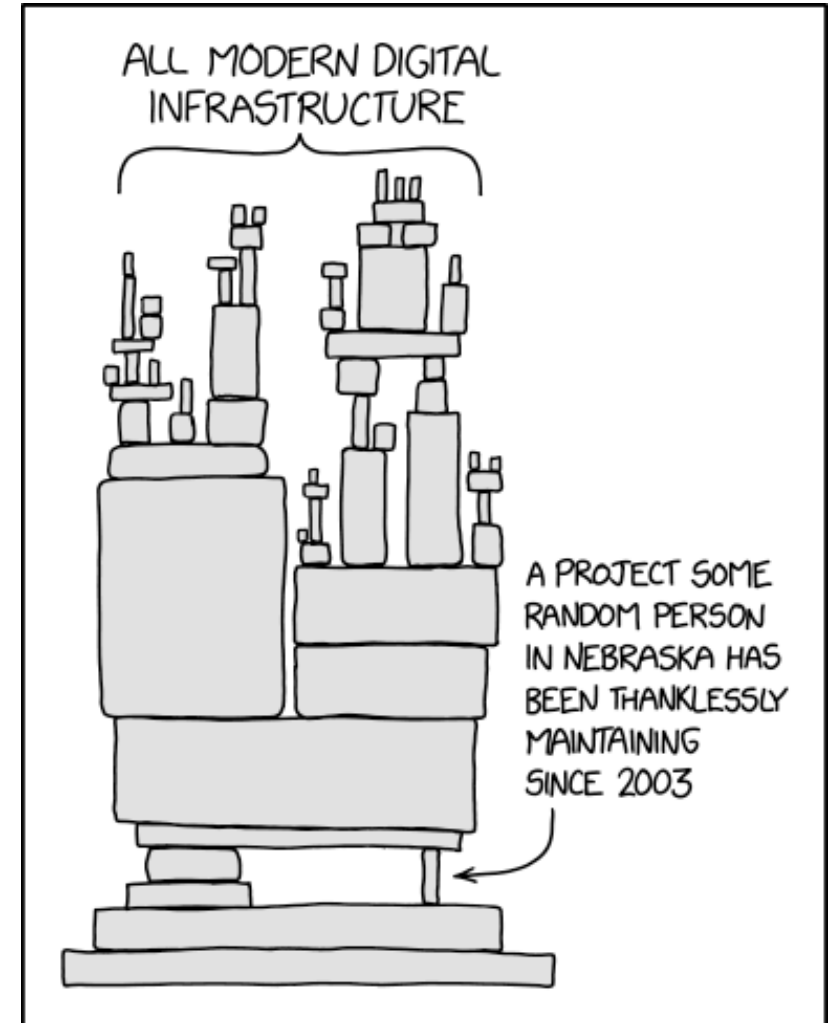

P&T culture dynamics

- Within units vs. campus recognition
- Old guard vs. new cultures

Uncertain quality metrics

- Usage dominates vs. peer review equivalent

Single investigator vs. team discovery

- Roles and responsibilities
